RE: TxDOT TA Project (FY 2023) – Montrose Waugh Drive Bike Lanes

To whom it may concern:

I am/We are pleased to support the Montrose Redevelopment Authority (TIRZ 27) in their pursuit of funding through the 2023 TxDOT Transportation Alternatives Set-Aside Program for the Waugh Drive Bike Lane Project.

This project is essential to improve the state of pedestrian-bicycle connections in the area. The proposed project would add two protected and dedicated on-street bike lanes (one in each direction) on Waugh Drive from West Dallas Street to Allen Parkway, through the removal of one travel lane in each direction. The proposed bike lanes will tie into the existing bike lanes on Waugh Drive south of the proposed project and create a much needed connection to the Buffalo Bayou.

Please accept this letter as evidence of community and public support for this important project. Thank you for your attention and consideration.

Sincerely,
